

CAREER ATTITUDES AND STRATEGIES INVENTORY (CASI)

TEST TAKER PROFILE			
Name:	ATIENZA, CLAREN RUIN		
Student No.:	1903226		
Date of Birth:	November 10, 2003		
Age:	21 years old		
Program:	Bachelor of Science in Information Technology		
Date of Assessment:	November 10, 2024		

SUMMARY OF RESULTS			
Job Satisfaction	70	High	
You are satisfied with your career and current job. You are probably not seeking change in your career or employment situation at this time.			
Work Involvement	30	Moderate	
You are about as involved in your work as most people are. You become involved in your work, but work does not overwhelm other activities.			
Skill Development	37	Moderate	
You take advantage of opportunities to develop your job skills and improve your work performance to about the same degree as most people.			
Dominant Style	25	Low	
You are usually a follower rather than a leader at work. You may avoid attempting to influence others.			
Career Worries	56	High	
You often experience anxiety or worries about your career, your work situation, or yourself. You may find that you are often upset about work or other things in your life.			
Interpersonal Abuse	24	Moderate	
You are usually treated with dignity at work, but you occasionally notice or are bothered by crude, insensitive, or inappropriate conduct at work.			
Family Commitment	17	Moderate	
Balancing work and family responsibilities is sometimes difficult, but you can usually cope.			
Risk-Taking Style	39	High	
You are willing to take calculated risks to get ahead in your career or to confront problems others may avoid. Others see you as an impulsive and unpredictable person.			
Geographical Barriers	25	Moderate	
Although you are not eager to move, you would probably not reject the chance to improve your career or family situation if it required moving.			
Career Obstacles			
Appearance	Age	Lack of self-confidence	Lack of money
Lack of connections, network, or supporters		My personality
